

Peer Review: Key Feedback & Actions

Too many features

Too many features shown — move detailed features to the report only. Keep the video focused and tight.

Chat & Transactions

Exclude transaction flow from the video demo. Cover it fully in the written report instead.

Target Users & Scenarios

Clarify user scenarios explicitly in the report. Make the intended audience clear from the start.

Map Filters & Markers

Filters must be clickable directly on the map. Markers should display **two letters**, not one.

Mini-Game Alignment

Current mini-game lacks connection to app purpose. After review, we'll retain the existing design and explain detail in the final report.

Leaderboard Filters

Add one more filter to the leaderboard — segment rankings **by task category**, not just overall.

Slogan Options & Next Steps

Choose Our Voice

“ HelpMate, keep you relate ”

“ Don't hesitate, use your HelpMate ”

“ HelpMate — save help, not wait ”

“ Turn your block into your squad ”

🗳️ **Vote on the final slogan**

Immediate Action Items

- 1 Finalize Slogan**
Team vote — lock in the brand voice
- 2 Update Map & Markers**
Enable filter clicks + 2-letter markers
- 3 Revise Leader board**
Align gameplay with app task categories
- 4 Start Report & Video**
Add scenarios, transactions, extra leaderboard filter
