

Additional Features

1

Podium Avatars

Top 3 helpers display avatars beside the podium, motivating users to actively engage with the platform and help others

2

Repeat Reviews

Users can review the same person across different tasks, building richer reputation.

3

Enhanced Filters

Filter by gender, age, and visible profile photo to help users find suitable matches.

Concern from Interviewee

Not Return Problem (Damaged Item)

Completed/Returned button to close transactions. Non-completion after 3 days locks the account. Reminder notifications sent to both parties. Post-completion survey & mutual reviews collected.

Liability & Safety (Background Check/ID Verification)

Consent form required before account creation. The requester pays for intentional damage. The same consent covers injury liability. Max engagement limit prevents score manipulation.

Cold Start

Seed via friends, interviewees, student clubs & schools. Profile authentication verifies identity.

A scene from the animated movie 'Hop'. On the left, a large, fluffy brown rabbit with wide, expressive eyes and a small black bowtie stands looking towards the right. In the center-right, a small green dinosaur with a long tail and a large open mouth is jumping or shouting. The background is a desert landscape with sandy ground, some sparse vegetation, and blue mountains in the distance under a clear sky. The text 'Thank for your Listening' is overlaid in the center in a white serif font.

Thank for your Listening
