

HelpMate — Research Insights

11 interviews reveal what students need from a neighbourhood help app.

Introversion & Social Barriers

8 of 11 participants identified as introverted — low-commitment contact reduces social risk.

Safety Is Non-Negotiable

All 11 raised safety. **ID verification, in-app chat, and reviews** are baseline expectations.

Gender Filtering

Female users requested **opt-in gender filters** for in-home tasks.

HelpMate – MVP & Roadmap

Core Features

- Map-first UI — pins, distance filter, gender filter
- Post types: Need, Supply, Friend
- In-app chat with pinned post context
- Exchange system — tracked lifecycle, timer
- Profiles with XP, level, and reviews
- Gamification — leaderboard, minigames, real-world rewards
