

1. Background

- He is a **master's student at the Unimelb, and has been living in city for one year.**
- He has **no real connection with his neighbours.**

2. Recent help-seeking experience

- He wanted to **borrow a trolley** to move furniture. Give up in the end since no one can help.

1. Use of existing platforms

- **Xiaohongshu / Red Note**, where people may help if you **pay** them.
- The biggest concern was **whether he could actually get help reliably.**
- **Responsiveness and usefulness** are critical

2. Challenges and pain points

- Prefer someone with a photo - clean
- Can focus on Melbourne first
- Can **have advertisements first** to gain engagement like PTV
- The ranking can **redeem** something – coupons...
- People can borrow and lend between friends in order to get a higher rank
Restricting one person can only give the other person feedback one time.
